## Impact & Results

Charity Navigator assesses how well a nonprofit delivers on its mission. To issue an Impact & Results score, we estimate the actual impact a nonprofit has on the lives of those it serves, and determine whether it is making good use of donor resources to achieve that impact.

### Impact & Results Score

BETA

Not Scored

We have not issued this nonprofit an Impact & Results score. This does not indicate a positive or negative assessment, only that we have not reached a conclusion for one of the following reasons:

- The nonprofit is eligible for a score, but we have not yet gotten to scoring it.
- The nonprofit is eligible for a score, but we have not yet developed the specific algorithms to estimate the impact of the type of service it delivers and so cannot issue a score yet.
- The nonprofit does not primarily deliver services directly to beneficiaries or it is not reasonable to expect the nonprofit to measure impact for its primary activity. The impact analysis framework that we use is not well suited to these nonprofits.
- The nonprofit is not heavily reliant on individual donors because beneficiaries fund a majority of its costs or it does not receive any private charitable contributions.
